

REMOVAL

TATTOO REMOVAL

INSTRUCTIONS FOR THE CLIENT

Following the procedure, hygiene and the use of aftercare products for post-procedural care are of utmost importance. The client is recommended to use the following products: Skin Monarch Cleansing Gel and Skin Monarch Scarcare Gel.

Skin Monarch Cleansing Gel is intended for daily use after a tattooing or permanent makeup procedure and unwanted pigment removal. The gel cleanses irritated skin easily and gently, soothing it and removing impurities as well as protecting the skin from infections. Use every time before applying Skin Monarch Scarcare Gel, 2–3 times per day.

Use instructions: put several drops of the product on a cotton disk. In circular motions, clean the skin gently, removing impurities and dried lymph fragments.

Skin Monarch Scarcare Gel helps to reduce skin irritation and redness, improve skin condition and appearance. For prevention of scars.

Use instructions: apply on the skin with a clean applicator, forming a thin layer of the product and leaving it to act. Before every new application, the skin must be cleaned with Skin Monarch Cleansing Gel.

Use both of these products until crusts will clear off the skin and it will regain its usual appearance.
